Premium control panel

If you want maximum sauna convenience, the Premium control panel is your choice. Packed with easy functionality such as weekly schedules and individual programs, personalized user profiles and crystal clear display, to name a few. All accessible via Wifi at the touch of a button on a mobile device or PC at a front desk.

Trend control panel

The elegant, compact design of the Trend control panel is all about functionality and advanced technology. It lets you set the lighting, temperature and sauna time easily with just a few touches.
