

# Tylö Expression sauna heater

reddot design award  
winner 2010

## A new expression in saunas

The design and inherent qualities of Tylö's Expression sauna heater have set a new benchmark in the industry. Its design has won much acclaim and has received the international Red Dot Design Award. However, it is not just the outside of this product that attracts attention.

Tylö Expression's twin heating chambers spread air more evenly and quickly and the integral fragrance dispenser offers a choice of aromatherapies for a relaxing, sensory experience. Available in two, new stylish finishes - champagne and copper. Naturally, Tylö Expression is fitted with energy-saving features that automatically reduce the power output as soon as the desired temperature has been reached.

Whichever one of the Tylö Expression models you choose, both your body and soul will thank you.
